Resource management - Efficient allocation and management of resources, including personnel, materials and equipment, to ensure optimal project execution. Project management (PM) permanently on-site at the construction site. PM deputy always available as backup if PM is absent due to illness or vacation. Construction Management permanently on-site at the construction site for each work area. Communication and reporting: Establishment of a clear communication channel between all project participants. Regular status updates. Quality assurance: Monitoring of quality standards at all project phases to ensure compliance with specifications and industry norms. Document the results of the pressure tests and flushing processes. Initiation of improvement measures if quality requirements are not met. The item price needs to remain firm and fixed up to 7 + 5 months + 12 month onsite duration. The overall price for Overhead + Fxcost is limited to a maximum of 240.000,00 CHF.
